

505

LIVE

BIO

"We dream a parallel world. It isn't predictable. Some clocks might move backward, or time might feel stalled or stretched"

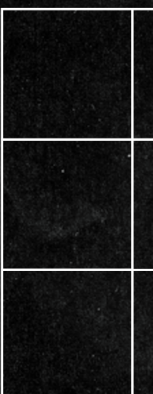

Berlin-based duo 505, composed of Daniel Calvi and Mattia Prete, creates a unique, boundary-blurring soundscape that exists between the realms of electronica, jazz, and distant echoes of trip-hop.

After a successful season performing at renowned festivals like the Montreux Jazz Festival, the duo is channeling their vision into a debut album, slated for release on Denovali Records in spring 2025.

Grooves that pulse with jungle-like intensity meet meditative and dreamlike atmospheres. Darker undertones that blossom into moments of euphoric melody. 505 is inherently collaborative, expanding its reach through partnerships with musicians from across Europe to enrich its storytelling and bring fresh perspectives to its music.
